Referral Program

Overview & Terms

Collide's referral program works fairly simply: We can offer a referral fee of 8% of the total pricetag for qualified leads that result in a sale. This 8% is rewarded for the *initial sale* that a perspective client engages in with us and not for subsequent work. *The referral must be mentioned either by the client or referrer at the time of initial engagement and not after work has started.*

Referral Reward

- 8% Regular-priced service
- 5% Nonprofit

Example

You refer a client to us who purchases a \$7000 website. When the client makes their final payment, Collide will send you a referral check for \$560.

Nonprofits

Because approved nonprofits already benefit from a 20% discount, we are only able to offer our referrers a 5% referral fee for qualified leads that result in a sale for nonprofits.

Self Referral

While certain considerations and other discounts may be available, self referrals are not generally recognized.

Referral Payment

Typical payment to the referrer is by check at the completion of the project, or when the client has paid in full. Referrers may receive a partial reward payment near the beginning of the project for larger or longer web builds (2+ months) of up to 50% of the total reward.
